UMAMA ABDUL-HAMID AHMED

Frontend Developer | Project Manager | UI/UX Designer

Zanzibar, Tanzania | harnekarumama110@gmail.com | 0622 149 431 / 0744 143 495 | GitHub: github.com/harnekarumama | LinkedIn: Umama Harnekar

PROFESSIONAL PROFILE

Computer Science graduate (BSc, State University of Zanzibar, GPA 4.7), Frontend Developer and Project Manager with four years of practical experience leading and building responsive web applications, educational technology platforms, dashboards, organizational and school websites, and user-focused digital products.

Experienced in coordinating the full project lifecycle across web, mobile and dashboard products, from planning and design through development, testing and delivery. Strong in React, Svelte, TypeScript, Tailwind CSS, Figma, Git, GitHub, Scrum and cPanel, with solid skills in documentation, team coordination, problem solving and presenting projects to clients and end users. Quick to learn new technologies through documentation, practice and real project requirements.

KEY SKILLS

Frontend Development	React, Svelte, TypeScript, JavaScript, Tailwind CSS, responsive design, component-based UI
Design & Product	Figma, UI/UX design, wireframes, user flows, product demos, stakeholder communication
Project Management	End-to-end coordination across web, mobile and dashboard platforms; task and timeline management; cross-functional team leadership; Scrum-based delivery
Deployment & Collaboration	cPanel, GitHub, Git, VS Code, documentation, issue tracking, basic hosting support
Professional Skills	Problem solving, critical thinking, project presentation, client and team communication, adaptability
Learning & Adaptability	MVC architecture, CMS-driven websites, mobile app fundamentals, documentation-based learning

CAREER HIGHLIGHTS

- Graduated with a BSc in Computer Science from the State University of Zanzibar with a GPA of 4.7.
- Managed the full Edugamez product across web, mobile and dashboard, from planning to delivery.
- Delivered public websites for national organizations and institutions, including STCDA, ZNCC, the Office of the Chief Mufti of Zanzibar and Mount Usambara English Medium Pre & Primary School.
- Built Edugamez Kids, an early-learning game platform available in three languages: English, Kiswahili and Arabic.
- Coordinated Notteco Renewal, a Japan-based ride-booking project, giving international project exposure.
- Led school visits, teacher training and user feedback collection for educational technology products.
- Led the final-year capstone, HarusiHub, from requirements to final report, with commercial intent beyond the academic scope.

PROFESSIONAL EXPERIENCE

HM&Y Technologies LTD | 2022 - Present | Zanzibar, Tanzania

Frontend Developer / UI/UX Designer / Project Support

Development & Design

- Develop responsive web interfaces and reusable frontend components using React, Svelte, TypeScript and Tailwind CSS.
- Design user-friendly screens and flows in Figma, focusing on simplicity, accessibility and mobile responsiveness.

Coordination & Delivery

- Coordinate with backend and mobile developers to align interfaces with APIs, track issues and support integrations as part of overall project management.
- Apply Git and Scrum-based teamwork practices for task tracking, project planning, testing and coordinated delivery.

- Use cPanel and GitHub during project deployment, hosting support, version control, testing and release preparation.

Client & User Engagement

- Lead product demonstrations, client communication, reporting and documentation.
- Conduct school visits and teacher training, and collect user feedback to improve the products.

Projects Contributed To and Coordinated

Edugamez, Edugamez Kids, Mount Usambara School Website, Notteco Renewal, ZNCC, ZNCPD, STCDA and Ofisi ya Mufti Mkuu Zanzibar.

SELECTED PROJECTS

Edugamez | *Project Manager, Web Developer, UI/UX Designer*
https://play.edugamez.org/

- Manage the full Edugamez product across web, mobile and dashboard, overseeing planning, coordination and delivery.
- Develop frontend features and design learning flows using React and Tailwind CSS.
- Support API-connected features such as registration and authentication, leaderboard and progress tracking.
- Present the product and train users in schools, and coordinate feedback across the product team.

Edugamez Kids | *Frontend Developer, UI/UX Designer, Project Manager*
https://kids.edugamez.org/

- Designed and implemented kid-friendly, responsive game screens for an interactive early-learning platform.
- Delivered the platform in three languages: English, Kiswahili and Arabic.
- Coordinated product development, testing and school engagement.

HarusiHub (Final Year Capstone Project) | *Project Manager, Developer*
github.com/harnekarumama/harusiHub

- Led the design and development of a centralized wedding vendor aggregator and planning system for Zanzibar.
- Coordinated the project from requirements through the final report, including all chapters, user manual and appendices.
- Built with commercial intent beyond the academic scope of the project.

Mount Usambara English Medium Pre & Primary School Website | *Developer, UI/UX Designer*
https://mountschool.edugamez.org/

- Designed and developed the complete website for a pre and primary school in Lunguza, Lushoto, Tanzania, from interface design to the live public site.
- Created a welcoming, child and parent friendly design that reflects the school's identity and its motto, Growing and Learning Together.
- Built responsive pages with React and Tailwind CSS so parents, guardians and the community can view school information comfortably on phones, tablets and computers.
- Worked directly from the school's needs to organize content clearly, giving the school a professional online presence.

STCDA Website | *Frontend Developer, UI/UX Designer*
https://stcda.go.tz/

- Designed and coded responsive pages for a public organizational website.
- Supported testing and helped deliver a professional public-facing website.

ZNCC Website | *Frontend Developer, UI/UX Designer*
https://www.zncc.or.tz/

- Designed and coded responsive pages for the Zanzibar National Chamber of Commerce.
- Supported testing and helped produce a professional public-facing website.

Ofisi ya Mufti Mkuu Zanzibar Website | *Frontend Developer, UI/UX Designer*

- Designed and coded website interfaces for a public information website for the Office of the Chief Mufti of Zanzibar.
- Supported testing and improved accessibility of information for users.

Notteco Renewal | *Project Coordinator*

- Coordinated a Japan-based ride-booking and driver-matching project.
- Supported testing activities and requirement tracking for an international digital product.
